## **Keywords**

Semantic Web  
Search, Semantic  
indexing, ontology  
classes

**Abstract:** *Enhancement of Data retrieval in semantic web search is presented in this paper. Among the different approaches for Web Search like keyword search, ontology-based search and Semantic search, the data retrieval enhancement process of Semantic Web Search is presented. As a part of this, Semantic Web architecture, Semantic Web indexing and root ontology classes like Domain-Concept, Topic, Documentation and Annotation are briefly explained.*
